

2024 SPRAY EARLY WEED CONTROL GUARANTEE

NORTH CENTRAL REGION

SPRAY EARLY
WEED CONTROL GUARANTEE

PROGRAM REQUIREMENTS (SOYBEANS ONLY)

Using XtendiMax® herbicide with VaporGrip® Technology¹, which has been classified as a restricted use pesticide, Pre/At planting provides the opportunity for participation in the Start Clean and or Stay Clean Weed Control Guarantees.

CHOOSE ONE

XtendiMax® Herbicide PRE/At Planting Option

START CLEAN

21 DAY

PRE/AT PLANTING WEED CONTROL GUARANTEE

Use appropriate burndown herbicide at labeled rate or tillage

CHOOSE ONE START CLEAN OPTION

within five days of planting but prior to soybean emergence

PRE/AT PLANTING APPLICATION

within five days of planting but prior to soybean emergence

XtendiMax® Herbicide with VaporGrip® Technology* (22 fl oz/A) and Pre-Emergence Residual with at least two active ingredients³

(Group 14 or 15 is required)

Eligible for up to \$18/A²

PRE/AT PLANTING APPLICATION

within five days of planting but prior to soybean emergence

XtendiMax® Herbicide with VaporGrip® Technology* (22 fl oz/A) and Roundup PowerMAX® 3 (30 fl oz/A) and Warrant® Herbicide (48 fl oz/A) and Metribuzin.

Eligible for up to \$26/A²

STAY CLEAN

30 DAY

POST-EMERGENCE WEED CONTROL GUARANTEE

CHOOSE ONE POST-EMERGENCE APPLICATION

within four weeks of planting and when weeds are less than 3-4 inches tall

Roundup PowerMAX® 3 Herbicide*** (30 fl oz/A) and

Warrant® Ultra Herbicide** (50 fl oz/A)

Eligible for up to \$18/A²

OR

Roundup PowerMAX® 3 Herbicide*** (30 fl oz/A) and Warrant® Herbicide (48 fl oz/A) and Labeled PPO-Inhibiting Herbicide

Eligible for up to \$18/A²

OR

XtendiMax® Herbicide with VaporGrip® Technology* (22 fl oz/A) and Roundup PowerMAX® 3 Herbicide*** (30 fl oz/A) and Warrant® Herbicide (48 fl oz/A) or Warrant® Ultra Herbicide** (50 fl oz/A)

Eligible for up to \$26/A²

OR

XTENDFLEX® SOYBEANS ONLY

Roundup PowerMAX® 3 Herbicide*** (30 fl oz/A) and Warrant® Herbicide (48 fl oz/A) and a glufosinate herbicide****

Eligible for up to \$18/A²

XtendiMax® Herbicide Post-Emergence Only Option

STAY CLEAN

30 DAY

POST-EMERGENCE WEED CONTROL GUARANTEE

Use appropriate burndown herbicide at labeled rate or tillage

PRE/AT PLANTING APPLICATION

within five days of planting but prior to soybean emergence

Pre-Emergence Residual with at least two active ingredients³
(Group 14 or 15 is required)

POST-EMERGENCE APPLICATION

within four weeks of planting and when weeds are less than 3-4 inches tall

XtendiMax® Herbicide with VaporGrip® Technology* (22 fl oz/A) and Roundup PowerMAX® 3 Herbicide*** (30 fl oz/A) and Warrant® Herbicide (48 fl oz/A) or Warrant® Ultra Herbicide** (50 fl oz/A)

Eligible for up to \$26/A²

Applicator must check XtendiMaxApplicationRequirements.com for approved XtendiMax Herbicide tank-mix products and application requirements. Use full labeled rates of residual herbicides; however, some residual herbicides have rate and regional restrictions for soil texture, organic matter and pH. Follow those restrictions where applicable.

Explore our Weed Management Recommendations at: [ROUNDUPREADYXTEND.COM/PAGES/REGIONAL-WEED-MANAGEMENT-RECOMMENDATIONS.ASPX](https://www.ROUNDUPREADYXTEND.COM/PAGES/REGIONAL-WEED-MANAGEMENT-RECOMMENDATIONS.ASPX)

*Add labeled Volatility Reducing Agent (VRA) and Drift Reducing Agent (DRA) to XtendiMax® Herbicide.

** Add an adjuvant per local needs. When considering Warrant® Ultra, substitute Warrant® where Warrant® Ultra is not labeled or where carry-over is a concern. Refer to product label for special precautions on use rates by area and national restrictions. Warrant® Ultra may be applied only once per growing season. If using Warrant® Ultra in a pre-emergence application, Warrant® must be used in the post-emergence application.

*** Any agricultural branded Roundup products including Roundup WeatherMAX® Herbicide (32 fl oz/A) or Roundup PowerMAX® Herbicide (32 fl oz/A).

**** Add labeled AMS. Addition of a glufosinate herbicide may antagonize the control of certain weed species by Roundup PowerMAX® 3 Herbicide.

1 Based on Court ruling and EPA Existing Stocks Order* on XtendiMax® Herbicide registration, Bayer has stopped its sale and distribution of XtendiMax® Herbicide. Visit our XtendiMax herbicide updates page to learn the latest www.ROUNDUPREADYXTEND.COM/XTENDIMAXUPDATES.

*Low-volatility dicamba products subject to the ruling include XtendiMax® herbicide with VaporGrip® Technology, Engenia® herbicide and Tavium® Plus VaporGrip® Technology herbicide.

2 Start Clean - If a farmer experiences less than commercially acceptable performance on labeled weeds³ within 21 days after the PRE/At Planting application while following all program requirements, Bayer will pay up to \$26/acre or up to \$18/acre pending the herbicide program used when Warrant® or Warrant® Ultra is not included for broadleaf weeds per season per grower, to assist in a follow-up application on the affected acres (only if respray occurs to manage an additional flush of weeds). Stay Clean - If a farmer experiences less than commercially acceptable performance on labeled weeds³ within 30 days after the post-emergence application while following all program requirements, Bayer will pay up to \$26/acre per season per grower (up to \$18/acre for broadleaf weeds and grasses pending herbicide program used or up to \$18/A for broadleaf weeds and grasses when a glufosinate herbicide is substituted for a labeled PPO-Inhibiting herbicide to assist in a follow-up application on the affected acres (only if respray occurs to manage an additional flush of weeds). The final decision whether the program on a field is less than commercially acceptable performance shall be at the sole discretion of Bayer.

3 Active ingredients include Group 2 (Imazethapyr, chlorimuron-ethyl, cloransulam-methyl); Group 3 (pendimethalin); Group 5 (metribuzin); Group 14 (fomesafen, flumioxazin, or sulfentrazone or saflufenacil); Group 15 (acetochlor, pyroxasulfone, 2-metolachlor or dimethenamid-P). Group 14 or 15 is required. Active ingredients must be from two different herbicide groups.

PROGRAM DETAILS

NORTH CENTRAL REGION

Program Details

- > Consult your dealer for product availability and program requirements. Talk to your local Bayer representative for the best weed management recommendation. All claims subject to verification and approval of claims by Bayer at its sole discretion.
- > Qualifying seed brands for this program include Asgrow®, Channel®, Fontanelle Hybrids®, Gold Country Seed®, Hubner Seed™, Jung Seed Genetics™, Kruger Seeds™, Lewis Hybrids™, Rea Hybrids™, Specialty Hybrids™, Stewart Seeds™, Stone Seed™ and most other seed brands.⁵ See below for list of eligible states.⁶
- > In order to file a claim, contact your local Bayer representative. A qualifying representative will confirm program requirements were met, including application timing, seed and chemistry invoices will be required for claim validation, rates and qualifying seed brands. This offer is only applicable for the 2024 growing season. Must notify of claim within 30 days of PRE/At Planting or post-emergence application. Claims deadline is August 15, 2024.

Program Conditions

- > BAYER CROPSCIENCE LP AND ITS AFFILIATES (“Bayer”) RESERVE THE RIGHT TO MODIFY OR WITHDRAW THIS PROGRAM OR ANY PORTION THEREOF WITHOUT PRIOR NOTICE.
- > Growers will forfeit rebates if products are resold outside of the Bayer’s authorized distribution or retail/dealer network. Bayer reserves the final decision, in its absolute discretion, on whether purchasers are valid growers.
- > No commission, incentive, rebate, refund, discount or other promotional payment shall be paid on units of eligible products under market funding programs where the sale is made, in whole or in part, via an online electronic point of sale system unless approved by Bayer in writing.
- > Bayer reserves for a period of three (3) years from the 2024 Marketing Year the right to audit compliance with all conditions and provisions of this program or other Bayer offers which includes, but is not limited to, an audit of retailer/dealer’s or grower’s books/ records and an inspection of facilities. If retailer/dealer or grower does not have the proper documentation for the three (3) year audit term, Bayer may treat such lack of valid documentation as if the sales were invalid and not properly made and subject to payment of the cost of the audit and forfeiture of program payments.
- > Bayer CropScience LP registers its products in the United States in accordance with and to meet U.S. regulatory standards. Such products are sold for labeled uses only and must be used only in accordance with all label instructions. Bayer recognizes that growers and exporting entities can participate in the global export markets for their commodities. However, standards, interpretation of those standards and testing procedures can vary significantly from country to country, and are subject to change. As such, while it will strive to assist growers by providing available information, Bayer cannot guarantee that meeting U.S. residue or tolerance standards will ensure compliance with maximum residue levels (MRLs) or other standards in place in importing countries. Growers and exporting entities are responsible to educate themselves about export markets and their requirements. If a grower or exporter is concerned about meeting and MRLs for an active ingredient or related metabolite, then testing for residues should be considered as an option to ensure residue levels.

4 On XtendiMax® Herbicide with VaporGrip® Technology, Warrant® Herbicide, Warrant® Ultra Herbicide or active ingredients group herbicide labels.

5 Seed brands that do not qualify for program include Corteva™ affiliated brands, Syngenta® affiliated brands, Stine® Seed, Merschman Seeds® and Credeenz® Seed.

6 Eligible States include North Central Region: Colorado, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri (excluding Bollinger, Butler, Cape Girardeau, Dunklin, New Madrid, Mississippi, Pemiscot, Ripley, Scott and Stoddard counties), Nebraska, New Jersey, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Virginia, West Virginia and Wisconsin.

No dicamba may be used in-crop with seed with Roundup Ready® Xtend Technology, unless and until approved or specifically permitted, and no dicamba formulations are currently registered for such use in the 2024 season. Please follow <https://www.roundupreadyxtend.com/pages/xtendimax-updates.aspx> for status updates.

Based on Court ruling and EPA Existing Stocks Order* on XtendiMax® Herbicide registration, Bayer has stopped its sale and distribution of XtendiMax® Herbicide. Visit our XtendiMax herbicide updates page to learn the latest www.roundupreadyxtend.com/xtendimaxupdates. *Low-volatility dicamba products subject to the ruling include XtendiMax® herbicide with VaporGrip® Technology, Engenia® herbicide and Tavium® Plus VaporGrip® Technology herbicide.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer’s Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

XtendiMax® herbicide with VaporGrip® Technology has been classified as a restricted use pesticide and must be used with VaporGrip® Xtra Agent (or an equivalent volatility reduction adjuvant). For approved tank-mix products (including VRAs and DRAs), nozzles and other important label information visit [XtendiMaxApplicationRequirements.com](https://www.XtendiMaxApplicationRequirements.com). Applicators must check [XtendiMaxApplicationRequirements.com](https://www.XtendiMaxApplicationRequirements.com) no more than 7 days before application of this product for additional labeling, including state restrictions. Where applicable, users must comply with additional requirements found on this website.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with products with XtendFlex® Technology.

Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Plants that are not tolerant to glyphosate, dicamba, and/or glufosinate may be damaged or killed if exposed to those herbicides. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

XtendiMax® has been classified as a restricted use pesticide. Not all products are registered for use in all states and may be subject to use restrictions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your local dealer or representative for the product registration status in your state. Roundup PowerMAX®, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready®, VaporGrip®, Warrant®, XtendFlex® and XtendiMax® are registered trademarks of Bayer Group.
